Hi, I'm in a high school physics class (IB Physics 1-2) and we're only on basic things like friction, newton's laws, etc, but I'm having trouble with the math and problem solving - do you guys know of any books that are easy to understand and help out with the math side of simpler physics? Or even just a website that is helpful?

Physics Fundamentals is a series teaching high school physics. Physics Fundamentals provides instructional content delivered through thirty-minute episodes and integrated classroom materials. Episodes provide content while giving cues for the classroom teacher to pause the program and interact with students, engaging them in discussions ...

Physics Fundamentals | Georgia Public Broadcasting

I am a 13 year old boy, who is very interested in theoretical physics. In fact, I want to work for a national laboratory, as one, when I grow up. I'm in 7th grade right now, but know a decent amount about physics. Christmas is coming up, and I want a high school physics book for it. Some fields I'm interested in are cosmology, astrophysics, and black holes (I know they go along with astrophysics).

Some good high school physics books? | Yahoo Answers

I'm doing High School Physics, and the question in my text book is: "An object falls from an aircraft flying horizontally at a height of 180 metres with a speed of 100m/s. Ignoring the friction of the air, calculate: a) the time the object takes to hit the ground; b) the horizontal distance it travels in this time. I got the answers from the back of the book: a) 6 seconds.

The Physics Classroom

Physics is the study of the world around us. In a sense we are more qualified to do physics than any other science. From the day we are born we study the things around us in an effort to understand how they work and relate to each other. Learning how to catch or throw a ball is a physics undertaking for example.
