Plant disease resistance protects plants from pathogens in two ways: by pre-formed structures and chemicals, and by infection-induced responses of the immune system. Relative to a susceptible plant, disease resistance is the reduction of pathogen growth on or in the plant (and hence a reduction of disease), while the term disease tolerance describes plants that exhibit little disease damage ...

Plant disease resistance - Wikipedia

EON plant markers are built to last right here in the USA by people that know plants. Every metal garden marker we sell is manufactured with love and care by our good friends in Napoleon, Ohio.
