I am a big fan of the Head First series, but I have an advanced degree in computer science so I don't find much interest in the Head First programming books. This one is different, I wanted a smooth introduction to statistics so I could spend some leisure time and study more advanced concept later on.

It is more like a reference / school book that I will dip into from time to time. I may never finish it, but I will refer to it a lot. I bought it after reading "How to Lie with Statistics" and "The Tiger That Isn't", which I have reviewed elsewhere. Head First are generally very good books for learning something new.
