The nature versus nurture debate involves whether human behavior is determined by the environment, either prenatal or during a person's life, or by a person's genes. The alliterative expression "nature and nurture" in English has been in use since at least the Elizabethan period and goes back to medieval French.. The combination of the two concepts as complementary is ancient (Greek: ἀπό ...

Nature versus nurture - Wikipedia

Cytogenetics is the branch of genetics that studies the structure and behavior of chromosomes and their relation to human disease and disease processes.

Cytogenetics | GLOWM

Aggression is overt or covert, often harmful, social interaction with the intention of inflicting damage or other unpleasantness upon another individual. It may occur either reactively or without provocation. In humans, frustration due to blocked goals can cause aggression. Human aggression can be classified into direct and indirect aggression; whilst the former is characterized by physical or ...
