HD Camcorder: High Definition Camcorders - Best Buy

What are Ultra High Resolution Security Cameras? How the surveillance industry created a phrase that sounds a lot like the TV industry term "Ultra High Definition," which refers to 4K (4096 x 2160) "higher than HD" TVs, to confuse you into buying cameras with a video quality closer to 1990's television.

What are Ultra High Definition Security Cameras?

High-definition video is video of higher resolution and quality than standard-definition. While there is no standardized meaning for high-definition, generally any video image with considerably more than 480 vertical lines (North America) or 576 vertical lines (Europe) is considered high-definition. 480 scan lines is generally the minimum even though the majority of systems greatly exceed that.

The PRO-630DN28 High Resolution Security Camera comes with a varifocal lens capable of adjusting from 2.8mm to 12mm. The varifocal lens allows an installer to adjust the field of view to just the right angle for precise video surveillance. The lens is also DC Auto-Iris which means the iris adjusts automatically for light levels.

High Resolution Security Camera - CCTV Camera Pros

The amount of detail that the camera can capture is called the resolution, and it is measured in pixels. The more pixels a camera has, the more detail it can capture and the larger pictures can be without becoming blurry or "grainy." High-end consumer cameras can capture over 12 million pixels. Some ...
