Peter van Inwagen is an intellectual giant in two major fields of philosophy, the problem of free will and today's materialist analysis of metaphysics. First we see how van Inwagen has changed the conversation from the "problem of free will and determinism" into an obscure distinction between compatibilism and his portmanteau concept incompatibilism, which confusingly combines hard ...

Calculus of variations is a field of mathematical analysis that uses variations, which are small changes in functions and functionals, to find maxima and minima of functionals: mappings from a set of functions to the real numbers. Functionals are often expressed as definite integrals involving functions and their derivatives. Functions that maximize or minimize functionals may be found using ...
