Outdoor Water Solutions - Windmill Aeration Systems

Outdoor Water Solutions worked together with a team of engineers to develop the most advanced technology available for wind driven aeration on the market today. Our new "BalCam" technology revolutionizes the industry by significantly increasing the amount of air produced with a single diaphragm utilizing our new balanced camshaft system.

Windmill Aeration Systems - Outdoor Water Solutions

Outdoor™ Water Solutions' Windmill Aeration System is 20' tall (23' to the top of its blades) and engineered to produce more air for pond/lake aeration than ordinary systems. Not only does it boast a higher air output, but it can also pump at deeper depths. The Windmill's 73" head diameter means the blades turn at lower wind speeds.

Outdoor Water Solutions Windmill Aeration System | Bass ...
