Vision G2 Elite 8 | Dissolution Testing | Teledyne Hanson

The Intrinsic Dissolution Apparatus is an updated version of the original Wood Apparatus for intrinsic dissolution. The design includes a hardened punch, a controlled surface area and an improved die design for more reproducible results. It is designed to meet or exceed current USP specifications as described in USP Physical Test 1087>. The ground and hardened surface plate provides an ideal surface for compressing samples.

Intrinsic dissolution apparatus set for Hanson Vision ...

For the first time, the user is able to measure or predict different physical parameters of their dissolution apparatus. With different algorithms the software can evaluate the wobble and measure RPM, determine the proper center alignment of individual shafts, and much more.

Hanson | Dissolution Accessories

The Hanson Chinese Small volume (CSV) dissolution system is based on the official method listed in the Chinese pharmacopeia. The CSV system includes a larger media vessel (250 mL typical) than the traditional small volume dissolution method (100-150 mL typical) commonly used in some special applications.
