One parent is the breadwinner, a corporate lawyer who is Type A when it comes to schoolwork, bedtime and the importance of rules. The other parent is the self-described "baby whisperer," staying home to care for the couple's two daughters and four sons, who dash through their days as if wearing jetpacks.

About Families Change. This website provides age-appropriate information to help kids, teens and parents deal with a family break up. The website was produced by the Justice Education Society in collaboration with California Courts.. The site content was authored with input from family counsellors, guidance counsellors, psychologists, lawyers, parents, teens and kids.

### **Home | Familieschange California**

In the United States, the rates of separated, divorced, and never-married parents continually increase, resulting in an ever growing number of single-parent families. These single parents often have limited economic resources while bearing total responsibility for the financial support and care of their family members.

### **Commentary: The Changing Dynamics of Work and Family**

The percentage of children under the age of 18 in the United States living in single parent households increased to 35 percent in 2014, according to the Annie E. Casey Foundation. In some locations, the number is greater.
