I have a ghost that come every night he come from under my bed and like to touch me what is this? How do you explain ghosts? What is some data about the E.S.P research of Stanley Kippner?

IED Activity 5.4 Answer Key? - weknowtheanswer.com

Activity 5.4 Calculating Properties of Solids Introduction Have you ever stopped to think why it is that you are able to float in water? The reason has to do with the concept of buoyancy, described by the Archimedes principle. The volume of water that your body displaces has weight. The weight of the displaced water pushes upward on you, while the weight of your body pushes down.
