Participants will experience a POGIL-based learning environment, analyze activities, understand how guided inquiry is structured in a POGIL classroom, and consider classroom facilitation and other issues related to the implementation of POGIL. Facilitators: Beff Mancini

POGIL | Home

The problem is that the only beneficial mutations ever observed do not add new information to the genome. Mutations in Viruses. This study illustrates the fact that natural selection can operate on a series of mutations and even on other organisms to produce a population change with a noticeably new characteristic.
