Writings on madness fill entire libraries, but until now nobody has thought to engage exclusively with the idea of sanity; we define it simply as that bland and nebulous state of not being mentally ill.

Going Sane: Maps of Happiness: Adam Phillips ...

Sanity, on the other hand, confounds us; it lacks the false allure of madness. Hamlet, as Adam Phillips points out, is glamorous, while the eminently sane Polonius comes off as a fool. In Going Sane, Phillips redresses this historical imbalance, drawing deeply on literature and his rich experience as a clinician.

'Going Sane': A Mad, Mad World. Some of his categorical claims are inflated. Richard Ford's Frank Bascombe and Raymond Chandler's Philip Marlowe, for example, spring to mind as imaginatively sane literary characters. Nevertheless, his broad story of sanity's humble position in a madness-crazed culture is persuasive.

Happiness is always a delusion | Books | The Guardian

The HPI (Happy Planet Index) puts at the heart the idea that happiness is not necessarily about wealth but living long lives with a high experience of well-being within the environmental limits of the planet. The reason for some high-income nations to score significantly below other nations is the ecological footprint left on the planet.

The Happiness Map | Kate Spencer

— Materialistic Happiness. This is the 'happiness' which buying and possessing material goods gives us. When we go shopping and buy a new dress, a new piece of furniture or a new car this presses a kind of instinctive 'pleasure button' inside us, so that we feel happy for a few hours or perhaps even a few days.
