Pride's Run starts off very interesting. It was something new and fresh, and I just adored it. However, when it came to Pride and Logan I had conflicted feelings. I'm usually not a big fan of werewolf stories, although I have to admit I enjoyed the Clair de Lune series as well. But werewolves just don't give me the same vibe as vampires, fallen angels or even witches do. All alpha werewolves are the stereotype of a dominating, rough and forceful leader, and on top of that, I just don't get the appeal of people being able to shift into wolves.

Most of the story is spent on the budding relationship between Pride and Logan. There's a lot of telling and not much showing about how great of a tracker/hunter Pride is.
