Ultra HD 4K vs 1080P. When you compare pixel count, 4K security cameras are 4x higher in detail than 1080P. This higher level of detail in the picture afforded by a higher pixel count makes 4K security systems ideal for high-traffic areas where detail is crucial in identifying the difference in someone dancing and fighting.

4K IP Cameras | Ultra HD 8MP and 12MP Security Cameras

High resolution. The image resolution should at least reach 1080p (1920*1080). The higher resolution the night vision camera for security has, the more details and clearer footage it would record, including facial details and license plates.

2019 Best Night Vision Security Camera Buying ... - Reolink

How the surveillance industry created a phrase that sounds a lot like the TV industry term "Ultra High Definition," which refers to 4K (4096 x 2160) "higher than HD" TVs, to confuse you into buying cameras with a video quality closer to 1990's television.

What are Ultra High Definition Security Cameras?

Although the current standard for security cameras is 1080p, a handful of developing surveillance cameras now offer 4K video resolution. They cost more, but 4K cameras serious boost your security. HD security cameras with 4K resolution provide four times the image quality of a 1080p camera, letting you hone in on important details like an ...
