This video came out in 2012, so it has been out for a while, but this is the first time I've come across it. I can't find much information about it, other than it is called the "Thunder" and appears to have been made by a company called Triple Action LLC, which is an FFL based out of Logan, Utah. The project must have been a local gunsmith put together without any serial production.

STS-114 was the first "Return to Flight" Space Shuttle mission following the Space Shuttle Columbia disaster. Discovery launched at 10:39 EDT (14:39 UTC), 26 July 2005. The launch, 907 days (approx. 29 months) after the loss of Columbia, was approved despite unresolved fuel sensor anomalies in the external tank that had prevented the shuttle from launching on 13 July, its originally scheduled date.

Other colours are a surprise! Also, I am not American, so I call "periods" full stops and I spell words the right way. I've tried to avoid discussing things Americans and other people disagree on in this guide (and specifically mention it when it does come up), but one or two little things may have crept in, for which I apologise (with an "s") in advance.
