Screen resolution or native resolution is the number of pixels on the display listed in the number across the screen by the number down the screen. Laptop displays look best when the graphics are run at this native resolution. While it is possible to run at a lower resolution, doing so creates an extrapolated display.

### **Choosing the Proper Display and Graphics on a Laptop**

For example, a monitor with a 1,920-by-1,080 native resolution can display 1,920 pixels across the width of the screen, and 1,080 pixels from top to bottom.
