With a procedural programming language such as C, it is possible to write moderately complex programs, fairly easily. However, even with structured programming methods, once a project reaches a certain size (25,000 to 100,000 lines of code), its complexity exceeds what a programmer can manage.

### **Answers | Yahoo Answers**

Since company sets prices [I assume] it is fruitless to penalize any particular Pizza Hut for its high prices. Frankly, we don't eat in very often b/c we can get a better entres at other restaurants for same price as their Italian dishes. Regarding carry out, they constantly have coupons which bring large pizza prices down to as little as \$6.
