Is there a search engine that you can type a question into which will give you a single answer rather than a list of results which you then have to trawl through yourself to find what you want to know? For example, this is how I would design the system: User's input: "Where do you go to get your eyes tested?" System output: "Opticians."

Many quite direct answers get lost in the maze-like brains of some of the readers who pounce on an opportunity to attack anyone who's mental constructions are not identical to theirs. For hosts of reasons we purposely write answers that require more applied intelligence so the trolls fall asleep while reading them, and we have to answer fewer comments that have nothing to do with the original question.
