pail, pale. The words pail, pale sound the same but have different meanings and spellings. Why do pail, pale sound the same even though they are completely different words? The answer is simple: pail, pale are homophones of the English language.

### **pail, pale at Homophone**

What is the difference between bucket and pail? Sometimes nothing, but sometimes a great deal.

There are cases where the two words can be freely interchanged, but many others where they cannot. When there is a difference, bucket is the hypernym of pail, in that pail is a more specific sort of thing and bucket is more generic.
