Final exam (100%): 2-hours written exam, no document allowed except for an A4 sheet of paper with only handwritten notes For training, you can look at the 2013 final exam [] (solution here []) or at the 2014 final exam []. (solution here) or at the 2014 final exam .

Game Theory course - Eurecom

(Gibbons 3.5): All perturbations of the game lead to the same limit result; that's the content of Harsanyi's purification theorem mentioned in class. Also, whichever perturbation you choose, you get quadratic equations like in class. However, some of those easier to handle than others. As it turns out, the expressions relatively easy to

Problem set #3 answers - Simon Business School

Game theory is the study of multiperson decision problems. Such problems arise frequently in economics. As is widely appreciated, for example, oligopolies present multiperson problems — each firm must consider what the others will do. But many other applications of game theory arise in fields of economics other than industrial organization.

A Primer in Game Theory - Semantic Scholar
