Reliable and Precise Geotechnical Engineering. Design with Construction in Mind. Since our inception in 1995, Pillori Associates has been committed to providing a full range of geotechnical engineering services for projects large and small. We are staffed by engineering professionals who are experts in earthwork and foundation design solutions.

Pillori Associates - Geotechnical Engineering

Geotechnical engineers and engineering geologists perform geotechnical investigations to obtain information on the physical properties of soil and rock underlying (and sometimes adjacent to) a site to design earthworks and foundations for proposed structures, and for repair of distress to earthworks and structures caused by subsurface conditions.

Geotechnical engineering - Wikipedia

Geotechnical engineering utilizes the disciplines of rock and soil mechanics to investigate subsurface and geologic conditions. These investigations are used to design, and build foundations, earth structures, and pavement sub-grades.
