This hdmi resolution problem, as one of the most full of zip sellers here will no question be along with the best options to review.

Hdmi Resolution Problem

I would like to mention that if I connect a PS3 through HDMI, the image looks perfect at 1080i. My graphic card is a nVidia GeForce GTX560 Ti, and I use the HDMI cable that came with the TV. I hope you can help me solve this problem, 1360x768 isn't a very good resolution for a 32 inch "monitor". Thank you in advance.

PC to HDTV through HDMI scaling problem | Tom's Hardware Forum

I tried to change the resolution but all of them are shit. I, also, reinstalled the Nvidia driver for my GTX 650, but still doesn't work. I didn't have this problem before. Any ideas? To be noted that I use an old Orion tv as monitor connected through HDMI.

HDMI 1080p Computer Resolution Won't Fill Screen on TV Need help with computer problems, please use my forum <http://www.briteccomputers.co.uk>

HDMI 1080p Computer Resolution Won't Fill Screen on TV

I have an HKC 26" monitor, 16:9 aspect ratio. It has VGA, DVI, and HDMI ports. I've been using the VGA and all functioned normally, but now I want to add a second monitor that is only VGA, and as the computer has only one VGA port, I'm trying to set up this monitor to use DVI instead. The resolution is set at the "recommended" level (1280 x 1024).

Solved: screen resolution problem with DVI | Tech Support Guy

Ordinarily, there should not be a problem converting HDMI to DVI, but there can be. For example, 3D and 4K signals are not compatible. With standard 480p, 720p, or 1080p resolution video signals, most of the time this is successful, but some adapters and conversion cables don't work as advertised. If you encounter this problem, it may not necessarily be the TV or another component.

How to Troubleshoot HDMI Connection Problems - Lifewire

HDMI Resolution When you connect the product to a High Definition (HD) TV with HDMI terminals using an HDMI cable (sold separately), you can select HDMI Resolution to output images to the TV. MENU → (Setup) → [HDMI Resolution] → desired setting.

Help Guide | HDMI Resolution

I have an AE700 and one problem I have had is that every time my machine restarts, the resolution goes down to 640x480 or 800x600, I forget which. I then need to switch back to 1280x720 and it works fine. Not sure if having the projector on and having the input set to HDMI would help with this.
