### **Philosophy Of Mind A Short**

This book is a wonderful introduction to the philosophy of mind from a broadly dualist perspective. Along the way, Feser surveys such topics as qualia, thought, intentionality, and reason. What makes this book so valuable is the way Feser is able to explain somewhat technical issues in terms an interested layperson can understand, without sacrificing any of the intellectual weight of the discipline.

The idea of mind has been theorized in both Western and Eastern cultures for millennia. One of the popular views is that mind is more akin to computer software or a program that runs on top of its hardware (the brain). This 'software' is both pre-programmed and re-programmed as we experience, learn and grow,...
